

International Input-Output Meeting on Managing the Environment

Seville (SPAIN), July 9 - 11, 2008

<http://www.upo.es/econ/IOMME08>

Chair of the Scientific Program Committee: Thijs ten Raa (Tilburg University)

Chair of Local Organizing Committee: M. Alejandro Cardenete (University Pablo de Olavide)

The **International Input-Output Association (IIOA)** and the Department of Economics, Quantitative Methods and Economic History of **University Pablo de Olavide (UPO)**, announce that the **International Input-Output Meeting on Managing the Environment** will be held on 9-11 July, 2008, at the Universidad Pablo de Olavide, Seville, Spain.

<p>Goal of the conference</p>	<p>The goal of the conference is to promote and stimulate the worldwide exchange of ideas among economists and between them and government officials, engineers and managers with interests in interindustry analysis and related methods. Thus, we invite thematic topics related to any aspect of input-output analysis and modelling related with environment.</p>	
<p>Mode of Participation</p> <p>Over the years organized sessions have proven to be among the best constructed and attended sessions at the International Input-Output Conferences. Thus, we strongly encourage proposals for organized sessions on particular themes. Thematic workshops and evening sessions/courses are also encouraged. Proposals for evening courses and thematic workshops should include a description of proposed contents, participants, and anticipated audience. Abstracts for individual papers may also be submitted. Every attempt will be made to fit accepted individual papers into thematic sessions. If there is no clear theme, sets of individual submissions will be grouped into sessions with common themes. In addition to plenary and parallel sessions of presentations we invite submission of posters for a poster session. A poster session is an excellent forum for the exchange of information and a good chance to communicate ideas, research, and programs personally and informally.</p> <p>Travel Grants</p> <p>Please see the conference web page for further information.</p>	<p>Call for Organized Sessions</p> <p>To submit a session or set of sessions, provide a description of the theme and objectives for the session and identify the organizer, session chair(s), and paper presenters by: name, title, affiliation, and proposed titles and abstract. Please submit sessions by January 15, 2008 to the Chair of the Scientific Committee (tenRaa@UvT.nl).</p> <p>Call for Papers</p> <p>Please submit abstracts for papers not exceeding 500 words by January 15, 2008 (to tenRaa@UvT.nl), including the title and the abstract of the paper, names of all authors, and full postal and e-mail addresses of the corresponding authors. Abstract acceptance will be communicated before March 15, 2008. Full papers must be sent before May 15, 2008.</p> <p>Call for Posters</p> <p>There will be a poster competition with a prize for the best poster. Please send your submission for a proposal for a poster presentation to Klaus Hubacek (hubacek@see.leeds.ac.uk) no later than May 15, 2008.</p>	
<p>Topics</p> <ol style="list-style-type: none"> 1. Sustainable Development 2. Globalization 3. Spatial Input-Output (IO) Modeling 4. IO and Comparative Advantage 5. IO and New Economic Geography 6. Economic-Ecological IO Modeling 7. Models of the World Economy 8. IO and Supply Chain Management 	<ol style="list-style-type: none"> 9. Monetary, Physical and Hybrid IO Analysis 10. Social Accounting Matrices (SAMs) and Social Network Analysis 11. IO Modeling and Operations Research 12. CGE Modeling 13. Methodological Aspects of IO 14. Practical Aspects of IO 	<ol style="list-style-type: none"> 15. IO Modeling in Policy Making 16. Sustainable Society 17. Sustainable Transportation 18. International Trade and Logistics 19. Environmental Management 20. Waste Management 21. Eco-efficiency 22. Productivity Analysis 23. Policy Analysis 24. Scenario Analysis
