The aim of the workshop is to bring together scientists and practitioners in the field of input-output research and to provide a platform for sharing experiences and research methods in the area of input-output analysis.

Topics to be discussed during the workshop could encompass the production of (inter)national and regional input-output tables, the development of input-output models or applications of input-output analysis to specific fields of interest.

Contributions to the following research areas are welcome:

- Creation of data basis
- Structural analysis
- Scenario analysis
- Evaluation

Other topics and suggestions for Special Sessions are welcome.

Participation

Please hand in your abstract (max. ½ page in PDF format) until **December 31st, 2023** to io-workshop@gws-os.com.

Each presenter will have 40 minutes; at least 20 minutes of which will be presentation time.

Participants without presentation are welcome. You can register for the workshop after the program has been announced.

Organisation

Anke Mönnig, Annette Olenberg (GWS)

Prof. Dr. Tobias Kronenberg (Bochum University of Applied Sciences)

Susanna Bolz, Philip Kerner (University of Bremen)

The workshop will be conducted in cooperation with the University of Applied Sciences (Osnabrück).
