

# General Assembly 2016

---

Welcome!

# Agenda

---

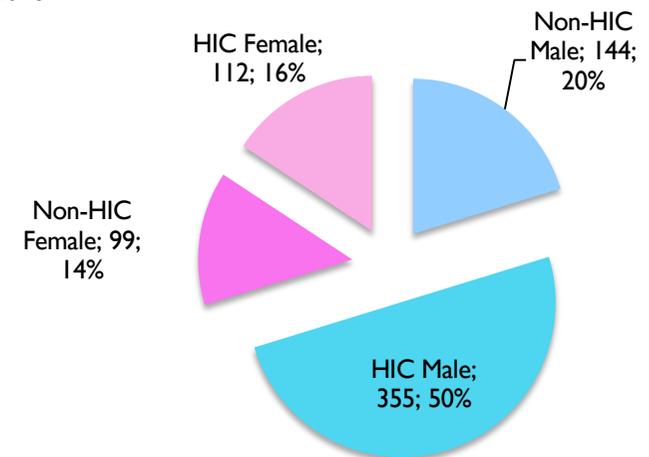

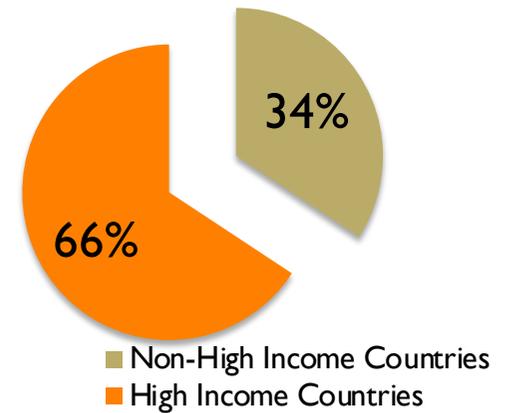

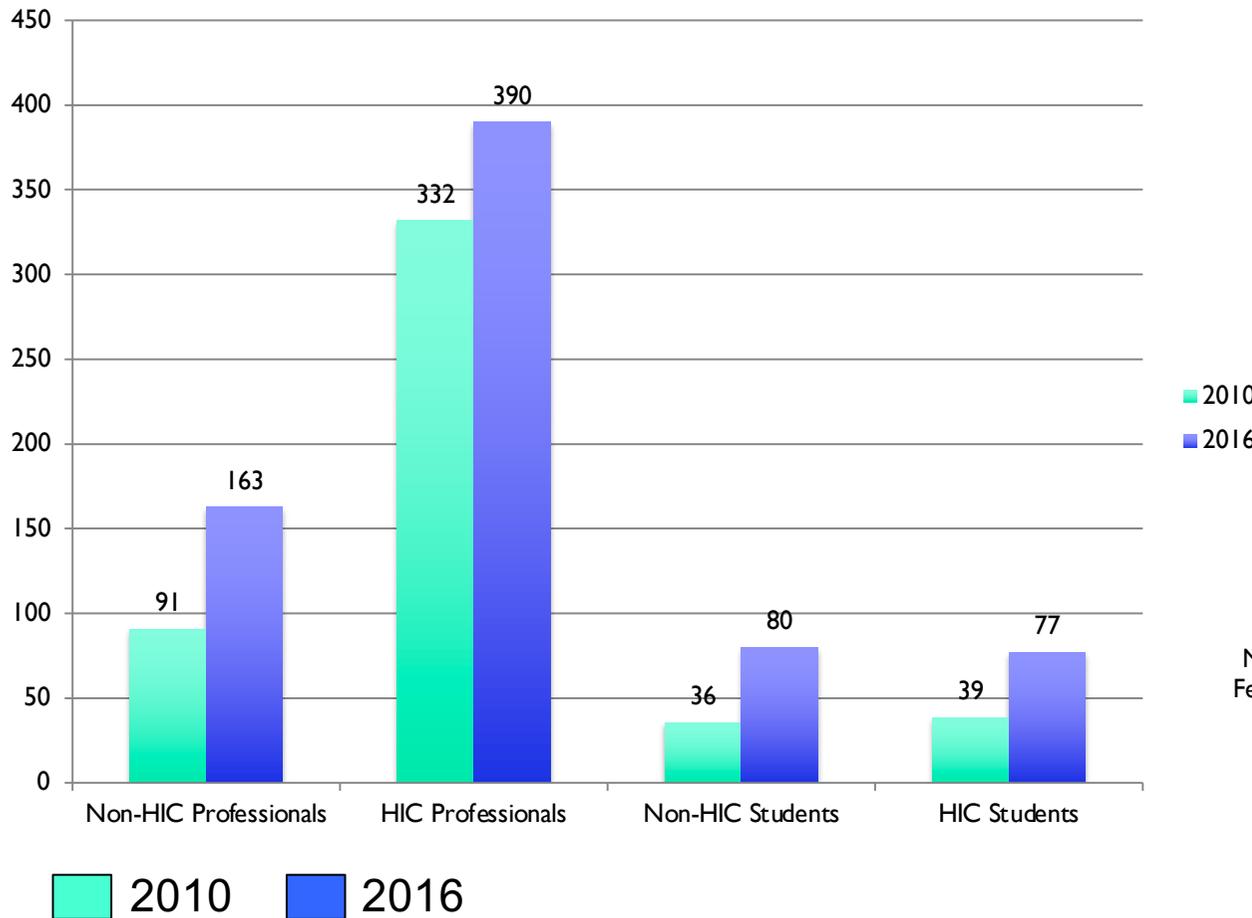

- Opening Address (Erik)
- IIOA Membership Overview (Chris)
- IIOA Operations (Chris)
- IIOA Council Composition & Elections (Chris)
- Financial Report and Budget Outlook (Chris)
- Economic Systems Research (Bart)
- ISIOA (Rosa)
- UN Handbook on SUT & I-O (Sanjiv)
- IIOA Conferences 2016, 2017 (Satoshi, Mike)

# IIOA Membership

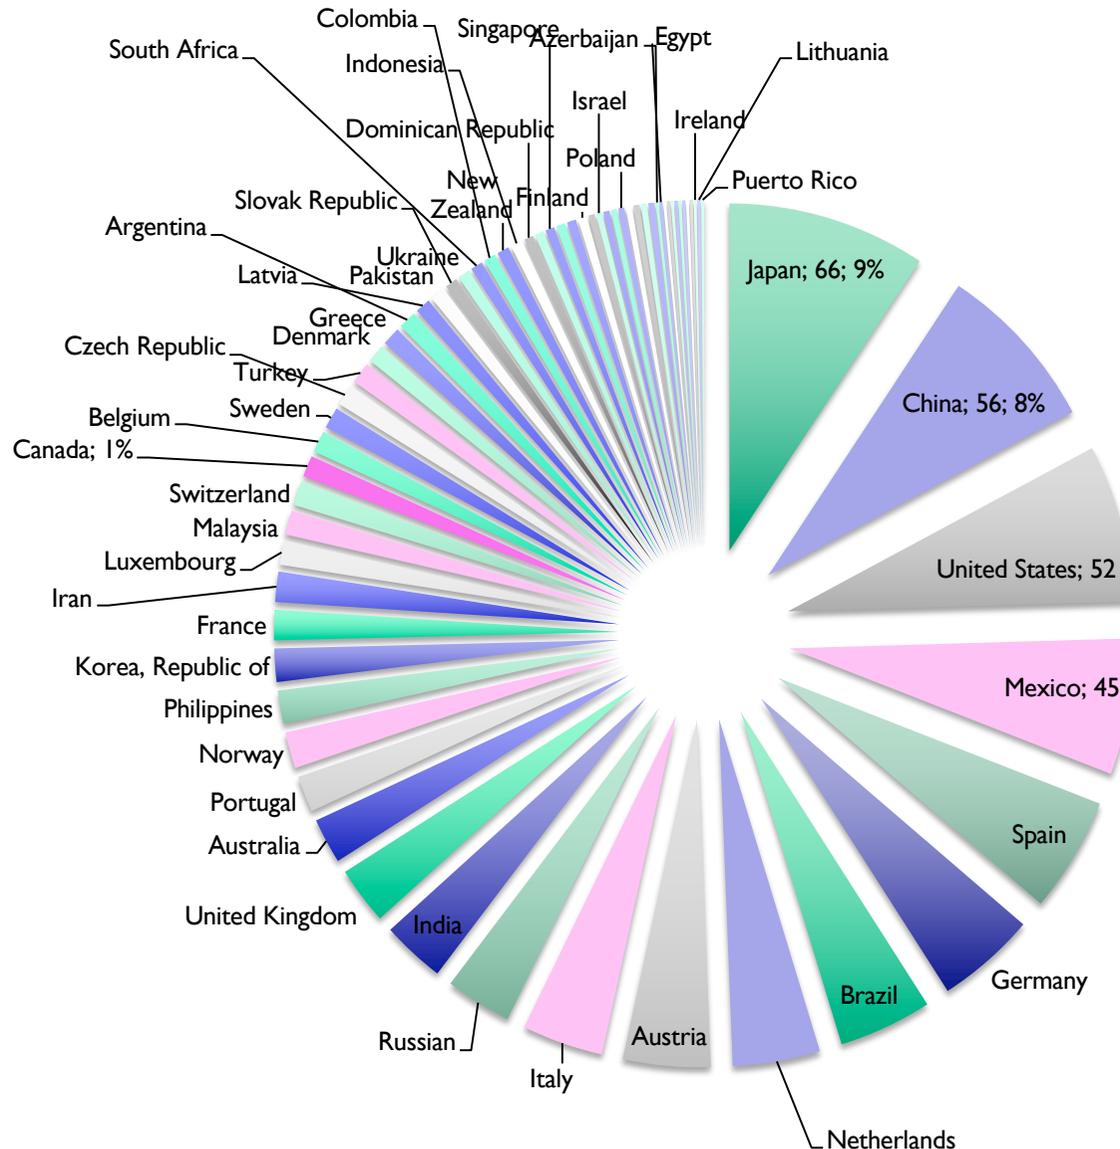

# IIOA Membership, as of 1 July 2016

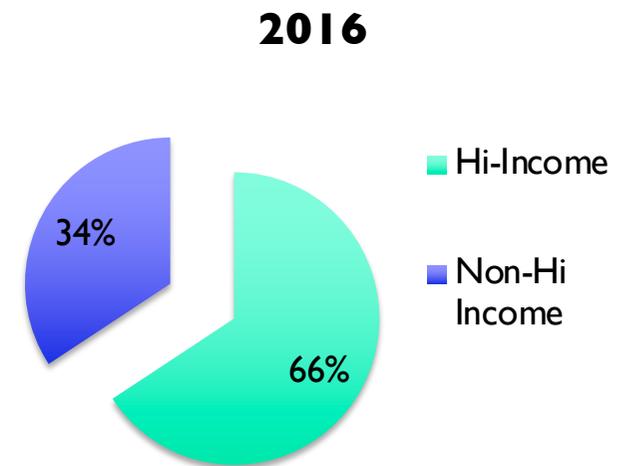

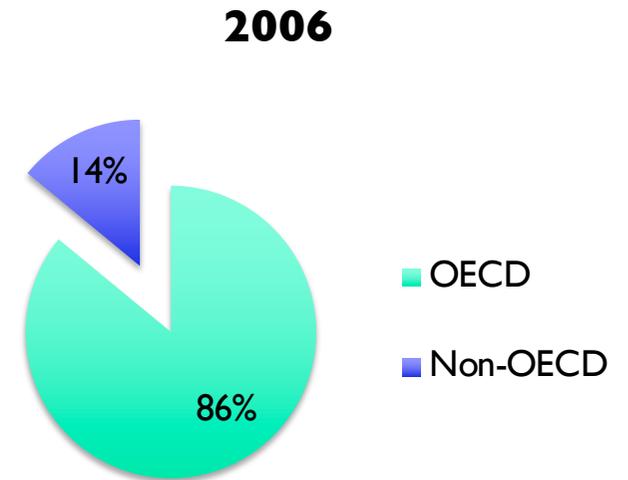

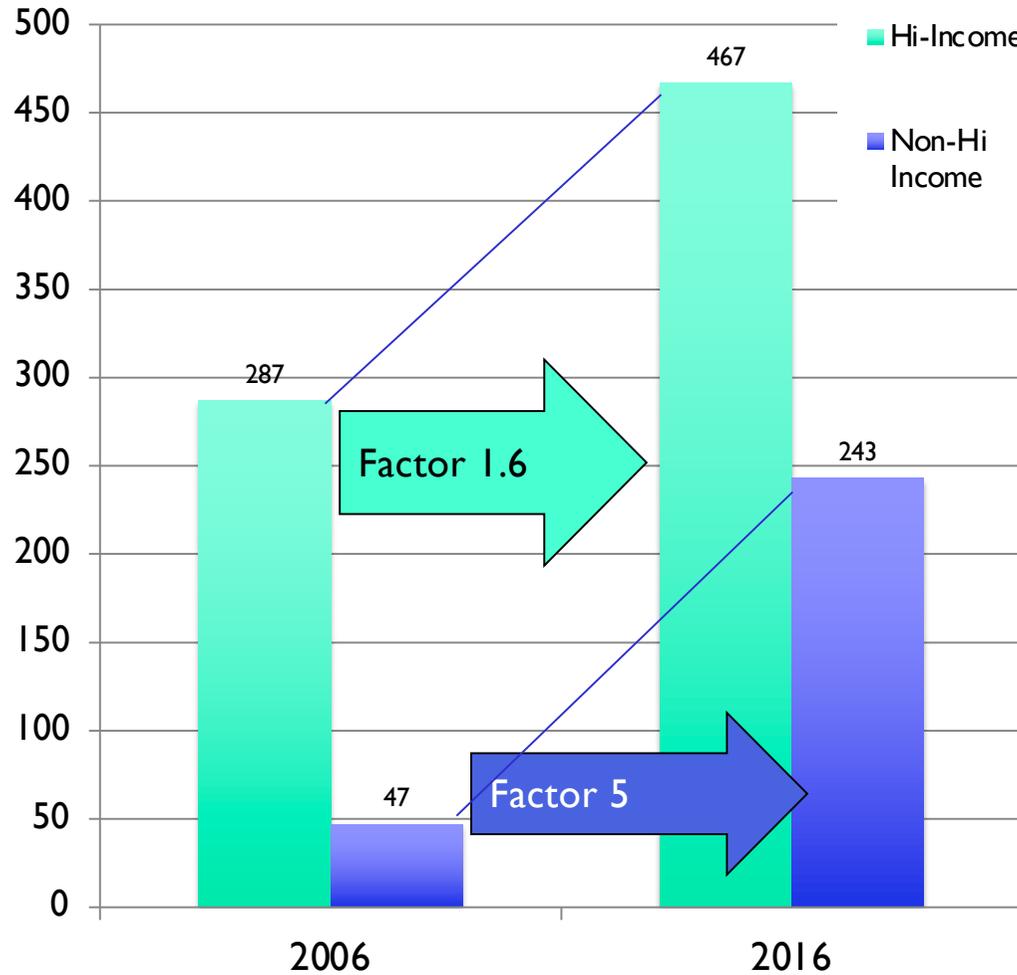

710 members. 16 Institutional members.

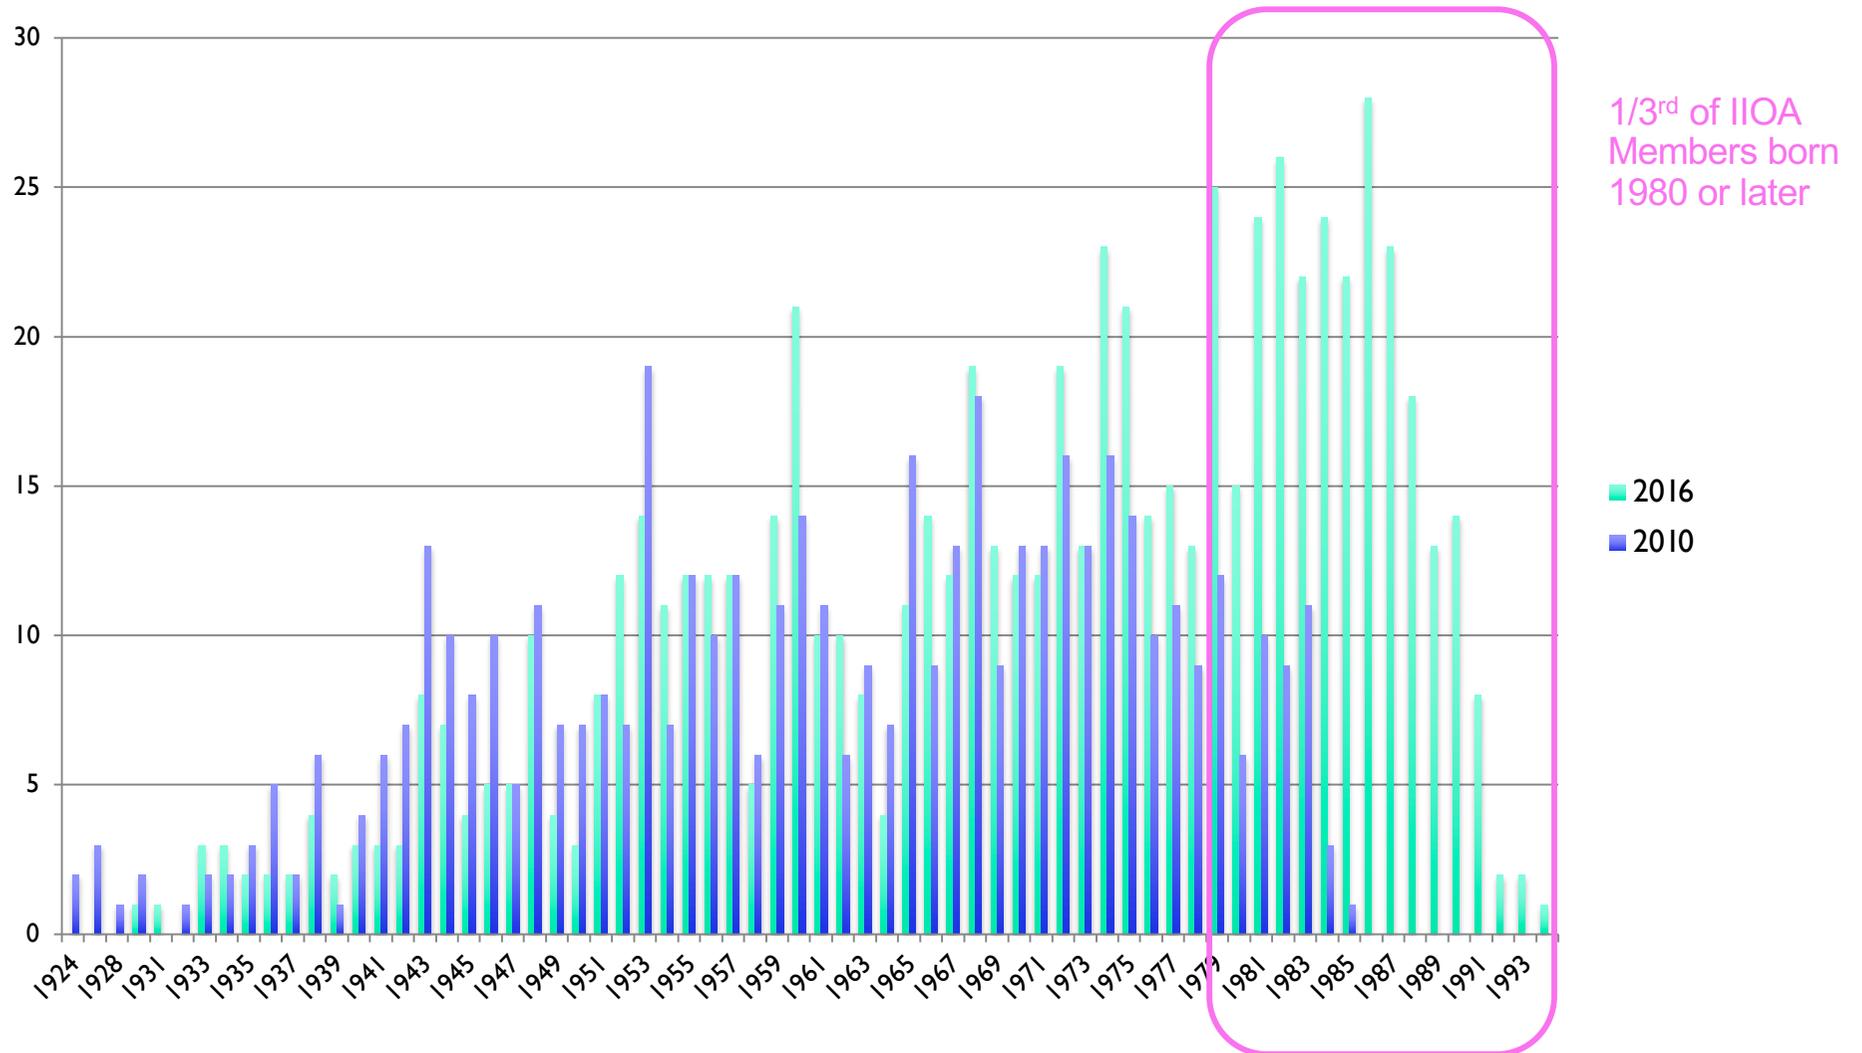

# IIOA Membership as of 1 July 2016: 710 Persons, 68 Countries

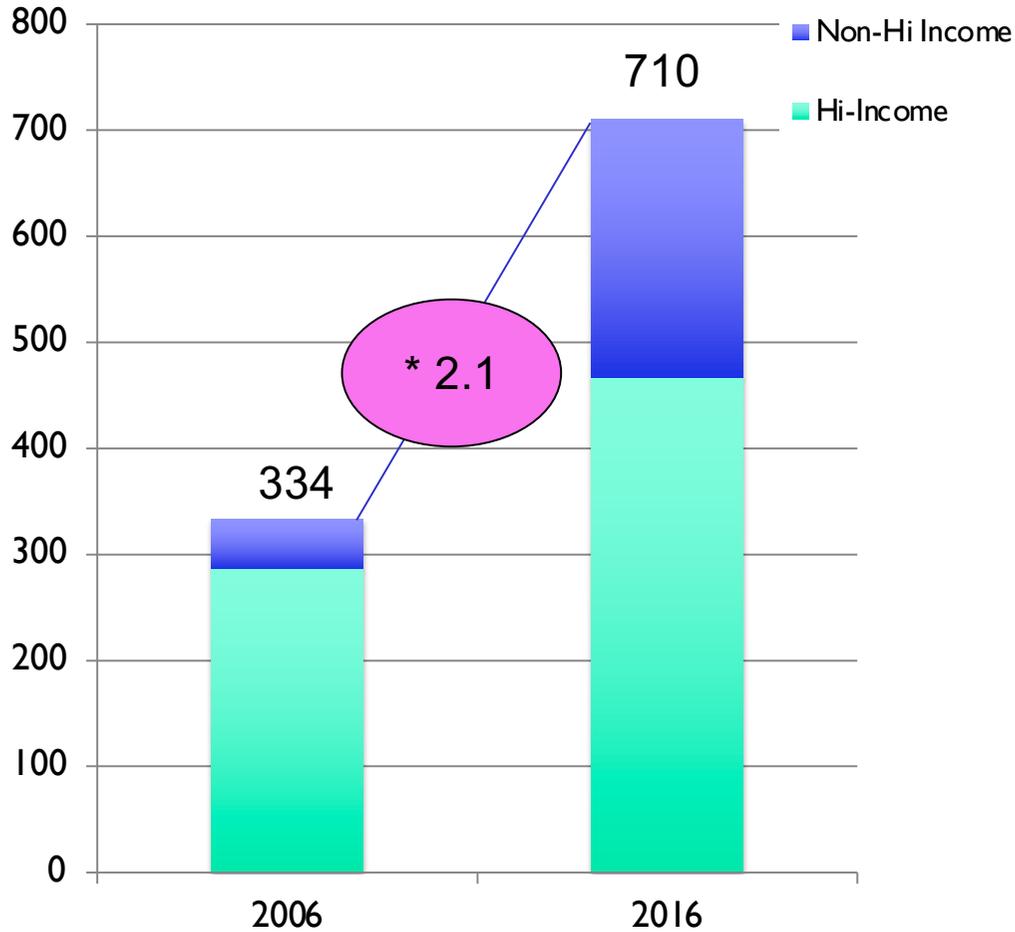

# IIOA Evolution: Decade 2006-2016

# Rejuvenating IIOA

# IIOA Evolution: Decade 2006-2016

# Persons in day-to-day IIOA operations

We need YOU to help!

**CONFREG**

Registration		
Registration fee in US-Dollar		
IIOA Membership Status	Payment before April 17	Payment after April 17
IIOA Members	260	360
Non-IIOA members	380	500
IIOA Member student	100	200

Do not confuse this with COPASS, which is for paper submission only! We have now **cross-checks** to help and remind you!

Use Members Area user name + password! The **system tries to recognize you** if you are in COPASS – and can pull its data!

Registration only completed with **payment!**

Mind the deadlines!

**PLEASE:**

Keep your contact data updated!  
(ESR mailing, Election ballots, Infos, ...)

Be aware of separate login: COPASS is also used by Non-Members!

Use Members Area user name + password!

Mind the deadlines!

- ESR Impact Factor,
- Photos/Videos of our conferences

The screenshot shows the Facebook profile of the International Input-Output Association. At the top, there is a navigation bar with the Facebook logo, a search bar containing "International Input-Output Association", and user avatars for "Christof" and "Home". Below this is a secondary navigation bar with "Page", "Messages", "Notifications 99", "Insights", "Publishing Tools", and "Settings". The main header area features a banner for the "24th International Input-Output Conference & 6th Edition of the International School of I-O Analysis 4-8 July 2016, Korea, Seoul". Below the banner is the profile picture (a pink-outlined logo) and the page name "International Input-Output Association" with the handle "@InternationalInputOutputAssociation". There are buttons for "Add a Button", "Liked", "Message", and a menu icon. Below the header is a navigation bar with "Home", "About", "Photos", "Reviews", and "More". The left sidebar contains information about the organization: "Non-Profit Organization · Vienna, Austria", a 5.0 star rating, a search bar for posts, and several statistics: "100% response rate, 40-days response time", "696 likes +4 this week", "2 were here 0 this week", and "158 post reach this week". There is also a "Boost Your Page for \$5" advertisement. The main feed shows a shared post by "International Input-Output Association" featuring photos of Yonsei University in Seoul, South Korea, with the caption "Muhammad has taken some great photos of the Campus!".

# Financial Report

# IIOA Financials 2015

- For 2015, IIOA shows a **surplus** of US\$7,700.
- High Non-Members Surcharge from **Mexico Conference**.
- **Royalties** steady at US\$ 38,800.-
- **Institutional Membership** constant at around US\$12,000.
- **Private Membership** contributions increased below US\$13,800 as they come in waves and faced a slump in 2013.
- **Council Travel** expenditures at US\$14,000.- were lower than expected.
- **ISIOA** expenditures very low.
- **IT Expenditures** with US\$ 6,900.- slightly above regular levels due to new systems integration enhancements to prevent no-shows at conferences.
- 26% more **Travel Grants: all-time high** of almost **US\$32,000**, 17 students funded!

Conservative estimates

2016 estimates use 2015 levels, as no operational changes with financial impact are envisaged.

Mini surplus expected

# **Special Report: Private MB Contributions**

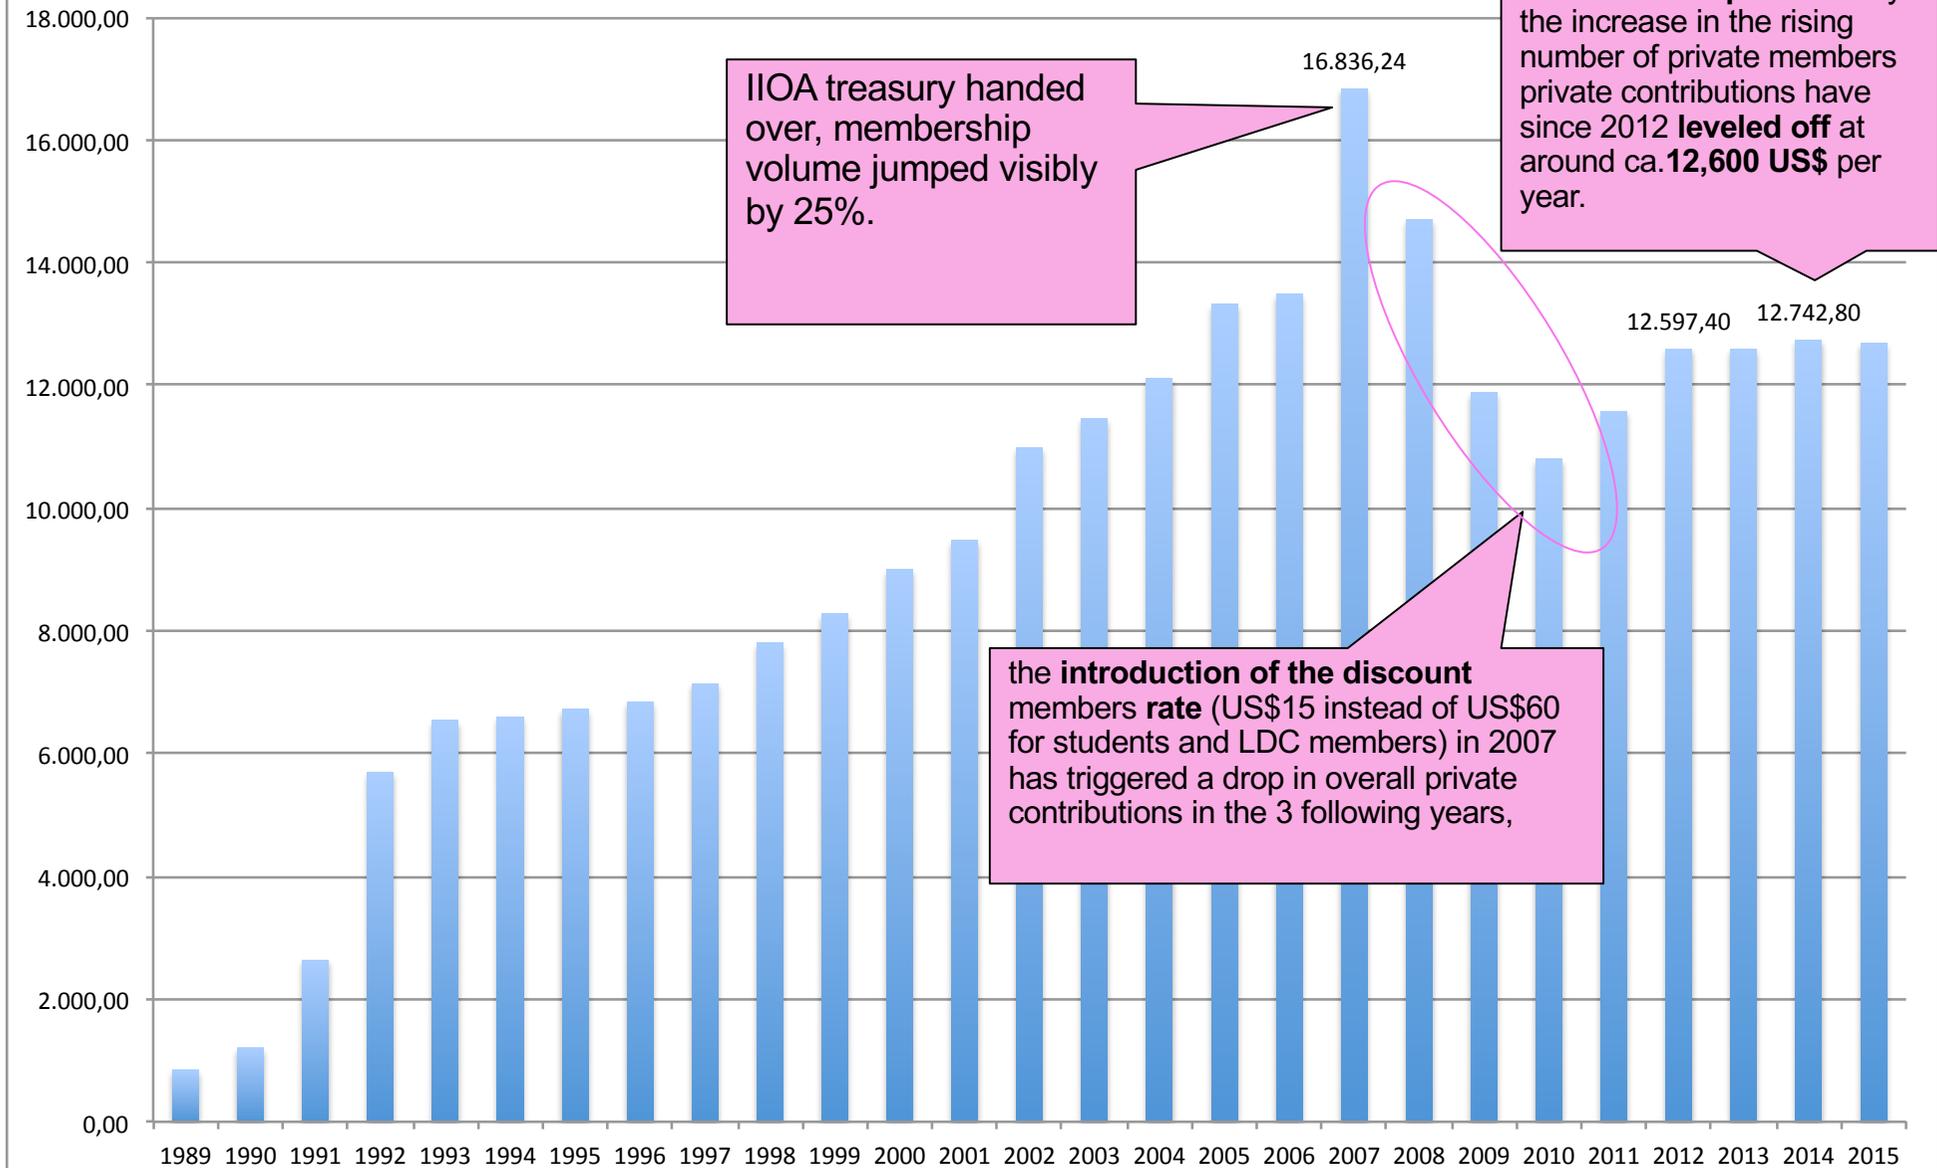

# Evolution of Private MBCs

In the 2015 IIOA Council Meeting, the President raised the question how much in **Private Membership contributions** was raised by IIOA each year, not on a cash-in-basis, but on an accrual basis (i.e. for the very years the contribution was paid for).

The result can be seen in the diagram, all figures in US\$:

## Total Private Membership Contributions, in US\$

IIOA treasury handed over, membership volume jumped visibly by 25%.

This slump was then **overcompensated** by the increase in the rising number of private members private contributions have since 2012 **leveled off** at around ca. **12,600 US\$** per year.

the **introduction of the discount members rate** (US\$15 instead of US\$60 for students and LDC members) in 2007 has triggered a drop in overall private contributions in the 3 following years,

Thus, the **oscillations** we experience in the **cash-in figures** are not reflected in the accrual data. Private membership contributions are quite stable.

# Economic Systems Research

# Impact Factor 2015

The 2015 Thomson Reuters Impact Factors were released on 13 June 2016. The 2015 Impact Factor for *Economic Systems Research* is the highest ever at 5.306 and places the Journal 3rd of 334 journals in the Economics Category (Tab. 3).<sup>1</sup>

Tab. 3: Top-10 economics journals in terms of 2015 Impact Factor.

Rank	Journal	2015 Impact Factor
1	Journal of Economic Literature	6.614
2	Quarterly Journal of Economics	5.538
3	Economic Systems Research	5.306
4	Journal of Finance	5.105
5	Journal of Economic Perspectives	5.012
6	Review of Economic Studies	4.077
7	Econometrica	4.053
8	American Economic Journal	4.038
9	American Economic Review	3.833
10	Value in Health	3.824

# Comparison: I-O related Journals

Tab. 4: 2015 Impact Factor of 20 selected input-output-related journals.

Rank	Journal	Impact Factor	Rank	Journal	Impact Factor
1	Applied Energy	5.746	11	Energy Economics	2.862
2	Global Env Change	5.679	12	Int J Prod Econ	2.782
3	Env Sci & Technology	5.393	13	Land Use Policy	2.768
4	Econ Systems Res	5.306	14	Regional Env Change	2.664
5	J of Cleaner Prod	4.959	15	Resources Policy	2.489
6	Energy Conv & Mgmt	4.801	16	Regional Studies	1.987
7	Energy	4.292	17	J Regional Science	1.630
8	J Industrial Ecology	3.265	18	Papers in Reg Sci	1.144
9	Ecological Economics	3.227	19	Reg Sci & Urb Econ	1.024
10	Energy Policy	3.045	20	Economic Modelling	0.997

The articles most contributing to the 2016 Impact Factor are:

- *Lenzen, Manfred; Moran, Daniel; Kanemoto, Keiichiro; Geschke, Arne, 'Building Eora: A Global Multi-Region Input-Output Database At High Country And Sector Resolution', Vol. 25(1)*
- *Dietzenbacher, Erik; Los, Bart; Stehrer, Robert; Timmer, Marcel; De Vries, Gaaitzen, 'The Construction Of World Input-Output Tables In The WIOD Project', Vol. 25(1)*

## Submission and Decision Statistics

The journal now routinely receives in excess of 100 submissions a year. Around two thirds of submissions are rejected, and this ratio has not changed significantly over the past three years (Tab. 5).

Tab. 5: Acceptance and rejection ratios.

Year	Accepted	Rejected
2014	40.0%	60.0%
2015	23.2%	76.8%
2016	30.6%	69.4%

# ESR Processing

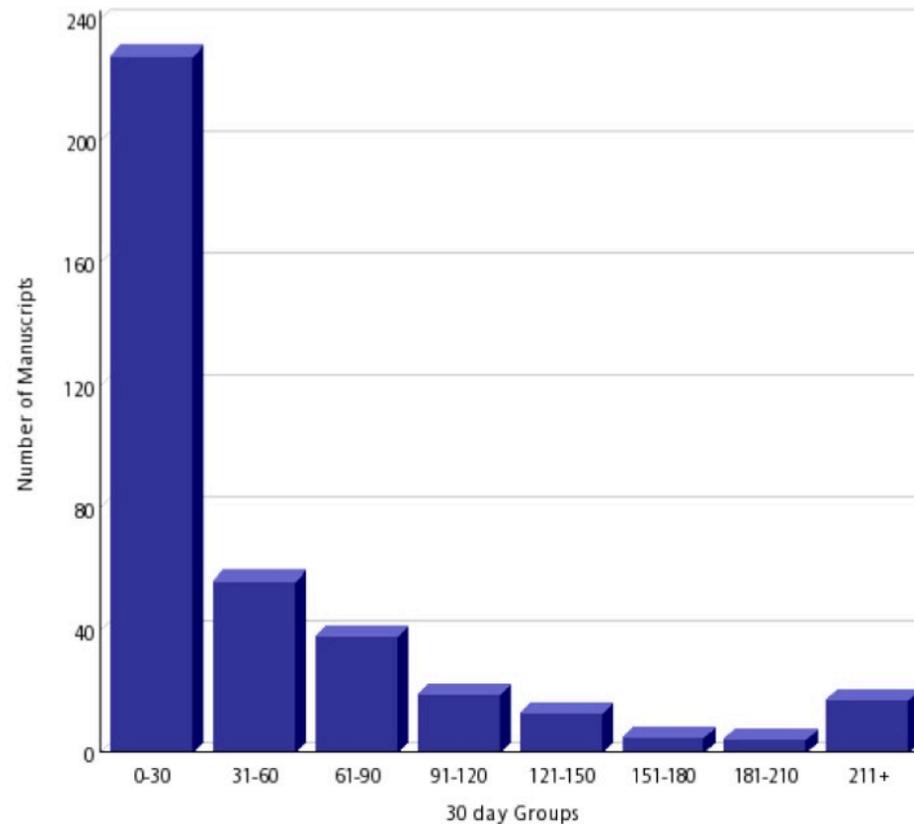

On average, the editorial process results in new submissions being processed within just over a month's time (36.7 days on average), with revisions taking a slightly shorter time (29 days; see Tab. 6).

Tab. 6: Review duration statistics for the June 2015 to June 2016 year.

Review step	Duration (days) prior 12 months
Avg. time to Assign Referee - Original	3.0
Avg. referee turnaround time - Original	33.7
Avg. days from submission to first decision	36.7
Avg. time to Assign Referee - Revision	2.5
Avg. referee turnaround time - Revision	26.5
Avg. days from submission to subsequent decision	29.0

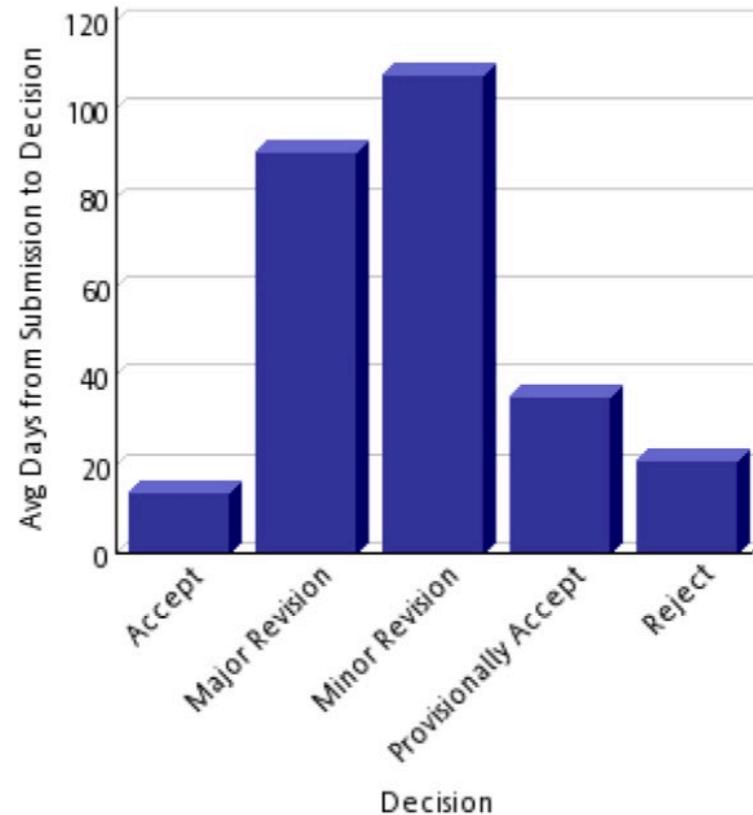

# ESR Processing

Fig. 1: Time elapsed from (re-)submission to decision, size distribution, 2014-2016.

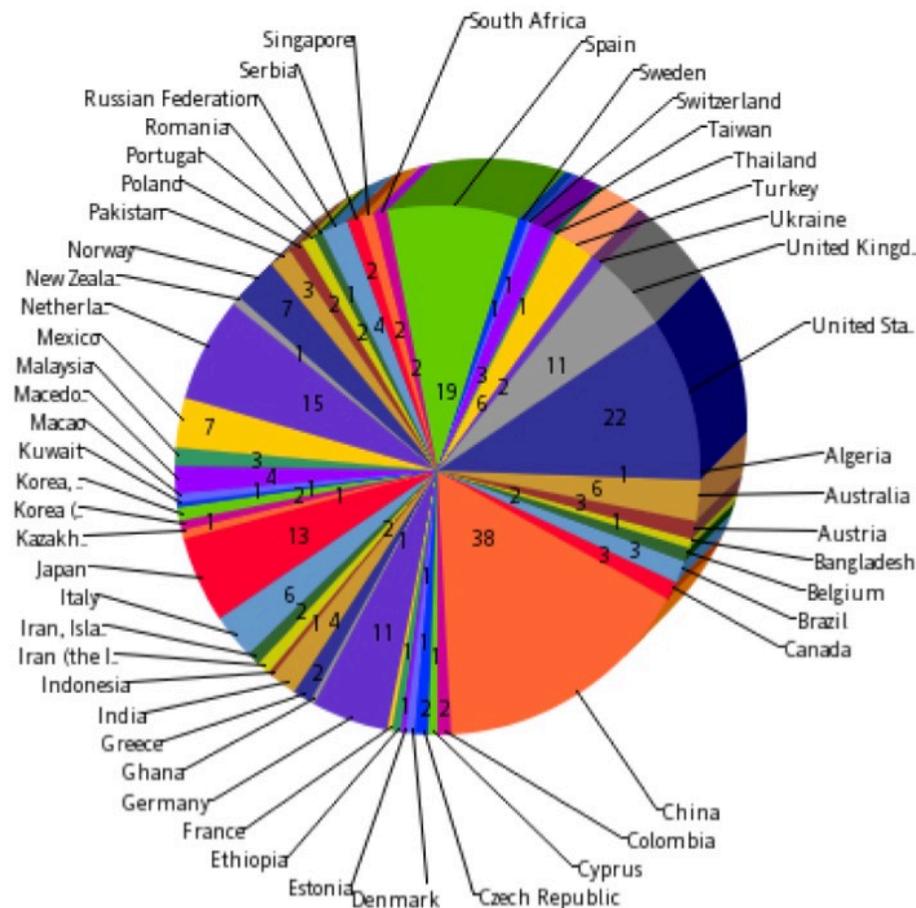

# ESR Processing

Fig. 2: Time elapsed from (re-)submission to decision, by decision, 2014-2016.

# Origin of submissions

Fig. 3: Country origin of 2014-2016 submissions.

Most of submissions between Jan 2014 and June 2016 originated from:

- China** (38 manuscripts, 17% acceptance),
- USA** (22, 38%),
- Spain** (19, 41%),
- Netherlands** (15, 80%),
- Japan** (13, 30%),
- UK** (11, 63%)
- Germany** (11, 86%).

**Q6: Please provide a list of topics that you would like to see in the next conference in the form of teaching sessions**

Dynamic IO analysis, Network analysis, Stochastic analysis

Modelling using WIOD/TIVA. Details on construction of TIVA and WIOD

Global value chains

More on policy implications and applications

Dynamic IO model/ Compilation of supply-use table

Applying IO techniques in economic forecasting

Social accounts matrices/ Financial accounts

Decomposition methods

More about Matlab

Inoperability IO model

Applications to water, recycling...

Advanced version of the courses

Deflating current prices SUT

The role of institutional sectors in production, distribution and redistribution of income

SAM, regional SAM and multipliers and CGEs

Integration of MRIO with other sources (Cons. Exp. Surveys)/ Focus to environmental applications pf MRIO

National IO table construction and Regional IO table construction step-by-step approach

Methods of balancing matrices

Updated and regionalized IO

Interregional IO tables

Analysis of asymmetric structures

CGE, software, GIS

# UN Handbook

# UN Handbook

---

## State of Play with the UN Handbook

- Need to update present version *Handbook on Input-Output Compilation and Analysis* (1999).
- Reflect the new SNA, BPM, SEEA, ISIC, CPC, etc.
- UNSD formally started revision process in January 2013.
- Editorial Board/Expert Group in place (April 2013) led by UNSD
  - 12 Members plus UNSD – Editor Sanjiv Mahajan (ONS, UK)
  - Leading international experts with decades of experience
  - Mix of members from different continents, IIOA academia, NSOs, etc.
  - All members contributed – Jörg Beutel: huge effort on formatting charts etc.
- 21 Chapters drafted plus supplementary sections like references etc.
- UNSD formatting into UN house style (some restructuring)
- Global Consultation in Q3 2016 and publication by end 2016
- Title: **UN Handbook on Supply, Use and Input Output Tables with extensions and applications.**
