

CALL FOR PAPERS
20th International Input-Output Conference
26th – 29th June, 2012, Bratislava, Slovakia
(24th - 25th June, 2012; International School of Input-Output Analysis)
<http://www.iioa.org/conferences-20th.html>

The International Input-Output Association announces that the 20th International Input-Output Conference will be held on **26th – 29th June, 2012, Bratislava, Slovakia.**

Goal of the conference

The goal of the conference is to promote and stimulate the worldwide exchange of ideas among economists between them and government officials, policy makers, engineers, national accountants and managers with interests in input-output analysis and related methods.

Mode of Participation

Planned/Organized Sessions

At past International Input-Output Conferences, pre-planned sessions organized by attendees have been most successful in terms of the number of attendance and participant interaction. For this reason, we strongly encourage proposals for sets of thematic sessions. In proposing such sessions or sets of sessions, as soon as is possible please send the Chair of the Scientific Program Committee an e-mail including the name(s) of the organizer(s), an abstract describing the theme/objectives for the session(s), names and institutional affiliations of the session chair(s) and presenters as well as an abstract for each paper to be included in the session.

Individual submissions

The majority of papers at International I-O Conferences tend to be submitted this way. We ask that author(s) submit their names, institutional affiliation(s), the paper title and an abstract of the presentation (of not more than 300 but not less than 200 words) and select a topic from the list provided. Abstracts are reviewed by members of the scientific committee before they can be accepted for inclusion in the conference program. An author is permitted to *present* a maximum of two papers at the conference but can of course be a co-author of a number of submitted papers.

Submission of abstracts

Please submit abstracts for papers before **January 15, 2012** through the new online abstract submission system COPASS: <http://copass.iioa.org>. Please, fill in the requested data (title, abstract, names of all authors, e-mail address, preferred day of presentation, etc.) and select an appropriate topic for the abstract. The length of the abstract should not exceed the maximum allowed by the system.

Submission of full papers

A paper with more than **2,000 words** shall be considered a full paper for the submission. The full paper should be sent in PDF format using <http://copass.iioa.org>. To secure a spot on the final program please submit a completed electronic version of the paper not later than **April 30, 2012.**

Travel Grants

The IIOA has limited funds to encourage **young experts from non-OECD member countries** to attend the conference. As many as ten awards in amounts of up to US \$2,500 each are available. Applicants must be IIOA members born after 1971. They must also present an unpublished paper and have not received travel grants in any of the three previous International I-O Conferences. The Travel Grant Committee of the IIOA will verify applicant qualifications and bestow the award to those qualified applicants with the most promising papers. Authors who wish to apply

for a travel grant should submit their **full paper** to the Chair of the Scientific Program Committee and the Chair of the Local Organizing Committee by **February 29, 2012**.

Leontief Memorial Prize

The IIOA is pleased to announce a Leontief Memorial Prize 2012 for the **best conference paper of young authors** (born after 1971, unpublished work, work combining theory and application) of the forthcoming International Input-Output Conference in Bratislava. All co-authors must meet the “young author” requirements. The Leontief Memorial Prize Committee of the IIOA will verify applicant qualifications and select the winning paper, which will be published in *Economic Systems Research*. Authors who want to compete for the 2012 Leontief Memorial Prize should submit their **full paper** to the Chair of the Scientific Program Committee and the Chair of the Local Organizing Committee by **February 29, 2012**.

Program and book of abstracts

The final program and the book of abstracts will include only papers for which at least one author has registered the conference **and sent the full paper (of at least 2,000 words) by April 30, 2012**. After this date, only co-authors of already registered and accepted papers and other participants without presentations will be allowed to register. Please, be aware that conference fees are not be reimbursed if any author decides not to attend.

Topics

1. Development of Input-Output Benchmark Accounts and Statistics
2. Approaches for Developing Satellite Accounts (tourism, sports, and environment)
3. Development of International Input-Output and Supply-Use models
4. Estimating Annual, Regional, and Multiregional Input-Output Accounts
5. World Input-Output Modeling and Related Databases
6. Estimating, Measuring, and Balancing International Trade
7. Analysis of Vertical Specialization and Outsourcing
8. Analysis of Productivity and Efficiency
9. Investigations into Economic Structural Change and Dynamics
10. Systems Econometric Time-Series Modeling
11. Computable General Equilibrium Modeling and Social Accounting Matrices
12. Conjoined Modeling Approaches using Input-Output Tables
13. Life-cycle Assessment using Input-Output Tables
14. Industrial Ecology using Input-Output Tables
15. Environmental Input-Output Modeling
16. Energy Input-Output Modeling
17. Transportation Input-Output Modeling
18. Analysis of Sustainable Production and Consumption
19. Physical and Hybrid Input-Output Tables
20. Examinations of the Input-Output Price Model
21. Dynamic Input-Output Modeling and Analyses of Capital Formation
22. Investigations into Classical Input-Output Applications
23. Cross-National Investigations of Industrial Economics
24. Representations/Analyses of the Firm in an Input-Output Context
25. Extensions in Multiplier and Linkage Analysis
26. Techniques for Identifying Important I-O Coefficients and Sectors
27. Mathematical Treatments of Input-Output Relationships
28. Examinations of Mathematical Properties of Input-Output Tables
29. Relating Input-Output Techniques and Network Theory
30. Impact Analysis of Disaster Scenarios
31. Input-Output-based Policy Analysis

OVERVIEW OF IMPORTANT DATES:

Submission of abstracts (by means of http://copass.iioa.org)	January 15, 2012
Call for convened sessions	February 29, 2012
Open registration	February 01, 2012
Notification of acceptance	March 01, 2012
Submission for the Leontief Memorial Prize (full paper)	February 29, 2012
Travel grants application	February 29, 2012
Early registration ends	March 31, 2012
Submission of full papers (by means of http://copass.iioa.org).	April 30, 2012
Registration closes	June 26, 2012
International School of Input-Output Analysis	June 24 - 25, 2012
Conference in Bratislava, Slovakia	June 26-29, 2012

Chair of the Local Organizing Committee:

Mikulas Luptacik
University of Bratislava
mikulas.luptacik@wu.ac.at

Chair of the Scientific Program Committee:

Christian O. Lager
University of Graz
